# ShIPLEY Towns Fund

In 2019, the Government launched the £3.6 billion Towns Fund. Shipley was one of 101 towns in England to be invited to bid for funding to support projects that will regenerate the town as part of the Government's strategy to level up communities across the country.

Following a public consultation, Shipley Towns Fund Board successfully submitted a Town Investment Plan to Government in February 2021, setting out the case for our town's proposed projects. The bid was subsequently agreed in June 2021, with up to **£25 million** being made available to Shipley.

The financial support from the Towns Fund will provide core public sector support for projects in our local area. In many instances, projects will also lever in private sector investment.

## £7m investment

Development including industrial units and brownfield sites, commercial property and affordable housing

## £1.91m investment

Grant programme for new and existing businesses

## £5.39m investment

Development of a Community, Arts, Heritage and Future Technology Centre by Shipley College
