

Save Money & Energy at Home

switch it
OFF

Get smart about electricity - borrow an 'Energy Saving Meter' today from your local library!

Join the fight against rocketing electricity bills and climate change by monitoring the amount of electricity you use in your home.

You could save up to 25% on your electricity bill!

Two types of meters :

- One to clip around the cable to your electricity meter
- One which plugs-in and monitors the usage of individual appliances.
