

Schedule of Policy Maps

The table below shows the modifications to the Policies map arising from the Main Modifications 2017 and other minor changes agreed through the Local Plan examination.

The table should be read in conjunction with the Schedule of Main Modifications and the Policies Map Extracts. Changes to the various maps are not of themselves main modifications and the Inspector will not be treating them as such.

The table sets out all the map changes that are proposed, as amended by the Main Modifications and other minor matters agreed through the Examination in Public.

The map extracts referred to in the “2017 Modifications maps” column only show the elements that have changed along with other related information. Where designations and boundaries shown on the submission draft Policies Map are not referred to below and are not shown on the updated maps (for example town centre boundaries) this is because they have not changed. They are however still relevant.

The schedule of post submission Policies Map modifications relate to the Bradford City Centre AAP Policies Map as submitted on 29th April 2016: Submission Document reference BCC-SD-002.

Schedule of changes to Policies Map 2017

Policies Map Modification Number	Policy / Figure number	Changes made
1	M5	Identify Bradford Canal Proposed Route
2	Figure 15, 16, 17, 18 and 19	Amalgamating Figures 15, 16, 17, 18 & 19.
3	Figure 19	Amendments to transport improvements for clarity

Modified Policies Map
