Iain / Emma et al

Hope this finds you well – nice to have spoken last week at our usual LP meeting.

Many thanks for the consultation regarding the Neighbourhood Plan consultation for Wilsden.

Having reviewed the documentation via the links provided (and being mindful of the extensive Local Plan work we already undertake with the team), there is little formal comment to make at this point on behalf of the Secretary of State for Transport, and their primary interests.

It remains that any planned development already identified in the wider LP consultations for Bradford Council will have been accounted for in the consultations between National Highways and yourselves, and that the council has our extant comments for the current LP. This will obviously extend forward to the next plan period and the work we will be undertaking together, and should include for all the local parish council's own aspirations to be outlined in the neighbourhood plan documents you will receive. Should new developments be publicly forthcoming (which sit outside of the existing LP settlement plans i.e. new housing or employment sites), we would look to review these with the Council in the usual manner, and any supporting mitigation they may require.

The current consultation shows the wider aspirations of the neighbourhood plan in a positive light, and this is welcomed. The proximity of the SRN under my own jurisdiction extends from a distance more to the south east, namely the M606 and M62 corridors. As with all development within the Council boundary, it is expected that the aggregated impact of all neighbourhood plans will link to the growing congestion and impacts on the SRN which the Council will need to continue to address in their wider IDP proposal, to ensure a sound local plan infrastructure offering. At this time therefore, I will continue my work with yourselves to identify any specific sites which may have a significant impact to the continued safe operation of the Strategic Road Network, and furthermore ensure the Council then continues to ensure financial contributions are collected from developers to provide any necessary mitigation on the SRN.

National Highways will remain vigilant to the *aggregated* impact of all Local Parish Council aspirations, when determining our position on the Local Plan for Bradford and the cyclical PINs reviews of this, now, and in the future.

My kindest ongoing regards to yourselves and all at the Parish Council.

Subject: BST24619 Public Consultation - Wilsden Neighbourhood Development Plan - Regulation 16

Dear Sir or Madam,

Wilsden Parish Council has prepared a Neighbourhood Development Plan for their parish area in conjunction with the local community under the provisions of the Town & Country Planning Act 1990, the Localism Act 2011 and the Neighbourhood Planning (General) Regulations 2012 (as amended). This plan has been the subject of community consultation and engagement, including two formal periods of consultation led by the Parish Council (under Regulation 14 of the 2012 Regulations). The proposed Neighbourhood Development Plan has been formally submitted to City of Bradford Metropolitan District Council as the plan that the Parish Council wish to see adopted for their parish, in order to allow formal consultation to be undertaken under Regulation 16 of the 2012 Regulations. If adopted, it will form part of the statutory development plan ('the Local Plan') for Bradford District and planning decisions will be made in accordance with it.

Accordingly, City of Bradford Metropolitan District Council has published the Wilsden Neighbourhood Development Plan and supporting documentation to allow formal representations on their contents.

Wilsden Neighbourhood Development Plan

The Wilsden Neighbourhood Development Plan (WNDP) sets out a vision for the future growth and development of the parish area, together with 9 objectives that seeks to deliver the vision. The vision and objectives are based upon the key issues raised by local people during earlier community engagement, and as part of the evidence gathering process, in order to ensure that Wilsden remains a vibrant, distinct, self-contained and forward-looking parish. To implement this vision and objectives, the plan contains 29 planning policies covering the following issues:

- Directing Development to Sustainable Locations;
- Housing Delivery;
- Built Heritage;
- Natural Environment;
- Business and Employment;
- Community Facilities;
- Shops and Shopping;
- Transport and Accessibility; and
- Developer Contributions.

The WNDP is also accompanied by a Design Code. This will together relevant national and local design policies and codes will inform decision making on planning applications within the Wilsden parish area.
