**Subject:** Shipley Area Action Plan Consultation

Dear Madame/Sir

In addition to my previous correspondence, I would like to add in my concerns that the people of Shipley are largely unaware of the proposed developments in their area. Whilst I understand that the Council has fulfilled its legal duty to consult, the consultation events have been poorly advertised and the plan is difficult to access. I have found the sheer volume of paper work and jargon involved in the documents to be off-putting in reading these fully, as well as the requirement for residents to respond according to proper policy. This is not in keeping with the Council being a democratic body, serving its residents.

I would expect a much larger scale of consultation so that the people of Shipley and Bradford are able to fully participate in the development of their district.

Yours faithfully  
[REDACTED] Fowler
