## Please set out why you think the plan is unsound ?

The sustainability report seems to be pretty insubstantial - what I've managed to glean from the plan overall (having only an hour or so to look at it - given, I like everybody else works full time and can't really realistically be expected to digest what you've posted), is that there will be a lot more HGV traffic (diesel emissions no doubt) and cars driving through areas which are already borderline if not totally illegal in terms of pollution levels. Manningham Lane, Otley Rd etc.

The wording of this consultation and the requirements of this form would put anybody off whose full-time job it wasn't to read and understand such things.

The process seems completely opaque, most residents know nothing about it (I only found out about it by chance) - and I'm basically terrified that you're just using 'economic growth' to justify a continued increase in motor traffic, HGVs, building on green spaces and either don't understand or don't care about genuine environmental well-being and the the social and health benefits that follow from it for communities (nevermind the economic benefits - which are not guaranteed at all given the cost to the NHS of increased air pollution).

I already have to walk my daughter to School through a mass of HGV pollution. You clearly are not concerned about reducing this but instead are proposing to increase it.

**Please set out what change(s) you would consider necessary to make the Plan sound?**

A solid plan to reduce HGV traffic and car traffic with clear targets and penalties if these targets are not met. Without this, the word sustainable is not one you can honestly use.

## Is the Plan legally compliant?

Legally compliant\* No

## Which part of the legal compliance is your comment about?

## Please give details of why you consider the plan is not legal ?

The plan will result in diesel pollution rising above legal limits. It is already possible (see West Yorkshire Low Emissions Strategy) that we are already above it.

## Taking part in the public examination
