Shipley and Canal Road Corridor Area Action Plan - Proposed Main Modifications

Thank you for your notification in respect of the above.

The Coal Authority would like to make the following comments in respect of the Main Modifications;

MM017 – The Coal Authority support this modification which notes the potential risks posed by unstable land and identifies that planning applications will need to be supported by a Mining Risk Assessment.

MM021 – The Coal Authority support this modification which notes the potential risks posed by unstable land and identifies that planning applications will need to be supported by a Mining Risk Assessment.

In respect of the other Main Modifications proposed the Coal Authority has no specific comments to make.

Thank you

Regards
