## **Inspector's initial questions and requests to and confirmation of documents received from City of Bradford MDC re Waste Management DPD**

- 1. I now have the paper and electronic copies of the submission documents for the Bradford Waste Management DPD.*
- 2. As part of the legal compliance tests, a copy of the latest Local Development Scheme and Statement of Community Involvement should form part of the submission documents and evidence base. Although there are copies of these documents in the examination library for the Core Strategy, they should also form part of the examination library for the Waste Management DPD. References are Planning & Compulsory Purchase Act 2004; s.19(1) & s.19(3); Regulation 22(1)(c); and NPPF (Paras 150, 153, 155, 157 & 182). Please supply sufficient copies for Inspector and Programme Office/Examination Library files*
- 3. Could you please confirm when the remaining documents included in the schedule of Submission Documents (documents WM-SD-049 & 050) are likely to be submitted.*
- 4. Does the Council intend making any amendments to the submission DPD, including any minor amendments to respond to points raised in the representations?*
- 5. There is an urgent need to update the Bradford Waste DPD webpage, in confirming that the Plan has been submitted to the Secretary of State for examination, and also the establishment of an examination webpage, including links to the submission documents and representations, along with the examination library.*
