DUTY TO COOPERATE
I am not satisfied with the process by which this application has been implemented.
Viewing the details of the Plan I consider the consultation process with adjacent Local Authorities and
members of the public to be at risk.
 Please set out what modification(s) you consider necessary to make the Plan legally compliant or sound, having regard to the test you have identified at question 5 above where this relates to the soundness. (N.B Please note that any non-compliance with the duty to co-operate is incapable of modification at examination).
You will need to say why this modification will make the Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
The whole plan should be reviewed and appropriate consultations take place. Review of Green Belt policy should be made and applied to this Development Plan.
Information from associated agencies including Water Authority and adjacent Local Councils should be evidenced within the documentation.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested change, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. Please be as precise as possible.

After this stage, further submissions will be only at the request of the Inspector, based on the matters and issues he/she identifies for examination.
