

Email to participants 020415 regarding Homework items

From: Tony Blackburn

Sent: 02 April 2015 18:01

Subject: Bradford Core Strategy review of Homework items

This email is addressed to participants at the recent Core Strategy hearings. Please note that in a small number of cases I do not have email contact addresses for certain participants where these were part of a larger team - accordingly, I would ask recipients of this email to forward this on to their team members in a further circulation, with my apologies to the latter if this results in a duplication of emails.

You will recall that the Inspector set items of 'Homework' at the hearings, in most cases requesting the Council to provide additional documents to assist the Examination process. I am now attaching the summary of completed Homework items which references the relevant entry appearing in the Examination library PS/F section on the usual webpage, as follows http://www.bradford.gov.uk/bmdc/the_environment/planning_service/local_development_framework/core_strategy_dpd_examination.htm

(At the time of writing the library list is complete up to number PS/F071 with the concluding two further entries likely to be uploaded on Tuesday 7th).

If you wish, you may provide comments about any of the listed homework items, subject to the following guidelines:

1. The item should be relevant to your original representation and/or further statement, and you were present at the relevant hearing session (dates are recorded on the Homework list)
2. Your comments should be no more than 1000 words per homework item and not be supplemented by additional appendices
3. Comments should be sent to me by email by close of business on Tuesday 21 April - paper copies are not required
4. The Council will have one week thereafter to provide any concluding comments - no further correspondence will be sought at the end of this period unless specifically requested by the Inspector.
5. Please quote the PS/F library number at the head of your submission.

I should emphasise that this exercise relates purely to those items listed on the Homework summary. It does not relate to the separate and subsequent consultation process, details of which will be advised separately in due course.

As always, please feel welcome to contact me if I can assist further.

Thank you.

Tony
