**Subject:** RE: Session 7D - Policy EN8 Environmental Protection

**Importance:** High

Dear Anthony

Please accept the Councils apologies for this oversight.

We are more than happy to amend the proposal as suggested in your further statement, that is to insert or instability.

*"B. Land*

*Proposals for development of land which may be contaminated or unstable must incorporate*

*appropriate investigation into the quality of the land. Where there is evidence of contamination or instability, remedial measures must be identified to ensure that the development will not pose a risk to human health, public safety and the environment. Investigation of land quality must be carried out in accordance with the principles of best practice."*

We would treat this is a minor modification to policy EN8.

Appologies once again and we hope that this has not inconvenienced you too much

Regards

Carole
