

Email 020616 from Programme Officer to recent hearing participants re completed homework items

This email is intended for participants at the recently resumed hearings for the Bradford Core Strategy and provides an update for the various items of 'homework' set by the Inspector and now completed by the Council.

The homework list attached provides library reference numbers for the various documents and you may recall that some of these have already been added to the Examination webpage library series PS/M. Others are in the course of upload and should appear shortly but in the interests of getting these to you promptly I have also attached them with this email.

A further item in respect of affordable housing, originating prior to the start of the recent hearings, is also in the course of upload as item PS/H003b and similarly comes attached with this email.

In respect of all items above, the Inspector is not expecting or inviting any further responses. He will shortly progress work on his final report and I will provide further details in due course via an update to the Latest News section of the webpage.

Thank you.

Tony
