(Please note: Your representation should cover succinctly all the information, evidence and supporting information necessary to support / justify the representation and the suggested change. It is important that your representation relates to a proposed main modification).

My objection is that the number of 6000 houses shown for SE Bradford should be reduced by 1800-2000 and that the reduced numbers in other parts of the City of Bradford which have reduced should not be reduced so extensively and/or that the numbers outside the City of Bradford which have been increased should be increased further to accommodate the reduction in SE Bradford. I believe it to be unfair that a disproportionately high number of houses are being distributed to SE Bradford, and in particularly the Tong Valley, which is not sustainable in community terms and will not be adequately supported by the infrastructure envisaged.

I do not think the proposal is legally compliant (although may be incorrect) as I have never been consulted on any of the plans, despite being a resident In the locality for 2 years and someone who would be impacted by the successful implementation of this plan. It is my beleiof that for this to be complaint there must be a robust consultation exercise throughout the process and it is only now I am aware of this as a result of a local opposition

O. Please set out what changes you consider necessary to make the proposed main modifications legally compliant or sound, having regard to the test you have identified at Q7 above. You need to say why this change will make the proposed main modification legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible. The number of 6000 houses shown for SE Bradford should be reduced by 1800-2000 and that the reduced numbers in other parts of the City of Bradford which have reduced should not be reduced so extensively and/or hat the numbers outside the City of Bradford which have been increased should be increased further to eccommodate the reduction in SE Bradford. Furthermore the Tong Valley is an area of natural beauty that provides many health and wellbeing benefits to the community. It also is of historical significance and provides a legacy that I believe should be protected. I would herefore urge Bradford Council to consider other ways of providing housing that does not adversely impact existing residents. I do not believe Bradford Council have acted in a way that best serves its stakeholders and set that this development is politically motivated at the detriment of its people.

If you wish to support the proposed main modification please use this box to set out your comments.

(Please note: Your representation should cover succinctly all the information, evidence and supporting information necessary to support / justify the representation and the suggested change. It is important that your representation relates to the proposed main modifications).

My concern is that the need to meet housing targets does not override the purposes of Green Belt protection set out in the National Planning Policy Framework, that the need for employment land has not been sufficiently identified and is exaggerated, that the Bradford Growth Assessment did not provide adequate independent evidence supporting a land release at Tong and that the Neighbourhood Development Plan did not support the use of the Tong Valley for housing as there was overwhelming public opposition to the proposals. I would be firm in saying that the land at Tong Valley is so necessary to prevent Leeds and Bradford joining together as one urban sprawl that no exceptional circumstances can justify its release.

I do not think the proposal is legally compliant (although may be incorrect) as I have never been consulted on any of the plans, despite being a resident In the locality for 2 years and someone who would be impacted by the successful implementation of this plan. It is my beleiof that for this to be complaint there must be a robust

consultation exercise throughout the process and it is only now I am aware of this as a result of a local opposition group. At no point has Bradford Council sent me correspondence regarding this matter and therefore I do not believe it is legally compliant, especially if others are in the same situation as myself.

Also I am disappointed that the council choose to pursue this option when Bradford as a city has many redundant buildings that could go a long way to revitalising the city and providing much needed housing, without having to disrupt what is a historically and legally significant area of green belt and area of significant environmental beauty.

I do not believe that Bradford Council have behaved in a way that represents the majority of its residents who have strongly opposed this proposal for a number of years. As a resident in Bradford for nearly two years and as someone who would be adversely impacted by this development I have had no contact or communication from the Council, which I do not believe is effective or positively planned.

10. Please set out what changes you consider necessary to make the proposed main modification legally compliant or sound, having regard to the test you have identified at Q7 above.

You need to say why this change will make the proposed main modification legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

I do not believe that the land designated as Green Belt should be modified at all due to its intended purpose and the impact it would have on many people lives who reside in Bradford.

I would urge the council to consider other options that exist within the City which would improve the regeneration of the city and maintain the lung and buffer required between Bradford and Leeds.

I do not believe that this proposal is within the best interests of the taxpayer and residents who have overwhelmingly objected to the development as a whole.
