Hi,

I am writing to object against the proposal to build on green belt land, particularly the area in the Tong Valley. Specifically points MM17 and MM18.

This area will suffer if this proposal goes ahead, it is unacceptable to propose to build such a large number of houses on green belt land.

The area can not support such large numbers of houses, surrounding roads are already gridlocked and school places are full. I would ask that you review these plans and look to build housing not on green belt land.

Regards

[REDACTED] Victor
