

How do I search for multiple applications?

If you are interested in more than one planning application, you could use the 'Advanced Search' feature. You can access the advanced search by clicking on the 'Search' icon on the toolbar at the top of the page.

In this example, we are using the planning tab as an illustration.

Advanced searching allows you to look for applications based on a range of criteria. For example, you might be interested in all planning applications in a particular ward, or applications granted between two dates.

In the example below, the searcher is interested in 'FUL' applications granted, in the City ward between 02/01/2017 and 10/08/2017
