DRIVER MODULAR TRAINING

Dear Operator,

As you are aware there is the need for all your drivers to have completed driver training before 1st September 2016.

Please ensure you speak to your drivers and book them on to driver training.

DRIVERS – this is the message from the HC and PH Licensing Service

On behalf of the licensing service I would bring to your attention that it is a condition of your licence that you complete refresher driver training within a three year period.

Failure, refusing to attend training or not completing training by the deadline will mean that you may be suspended from work with immediate affect and will not be able to work again until the training has been completed

Yours sincerely

HCPH Service
