Why Produce a Plan?

- **Government requirement with statutory duties set out through the Planning and Compulsory Purchase Act 2004** – essential that plans are in place and kept up to date.
- **Planning application role** - The development plan is at the heart of the planning system with a requirement set in law that planning decisions must be taken in line with the development plan unless material considerations indicate otherwise.
- **Strategic vision and direction** - Plans set out a vision and a framework for the future development of the area, addressing needs and opportunities in relation to housing, the economy, community facilities and infrastructure – as well as a basis for conserving and enhancing the natural and historic environment, mitigating and adapting to climate change, and achieving well designed places.
- **Certainty & Control** – having a Local Plan in place provides the Council and communities with greater control over the scale and nature of development and change compared to a planning application and appeal led situation.

Pennine Towns and Villages Overview

- No specific employment sites allocated but supportive of diversification of the local economy and support the continued renewal of local centres.
- Acknowledge the need to ensure infrastructure, transport and service capacity can accommodate additional growth.
- Strong focus on protecting existing open spaces, green infrastructure, and wildlife habitat networks and improving provision where possible.
- Improvements to connections to the countryside are supported.
- Recognition of the wealth of heritage assets in these settlements and how they can be protected, enhanced and influence new development.
