Why Produce a Plan?

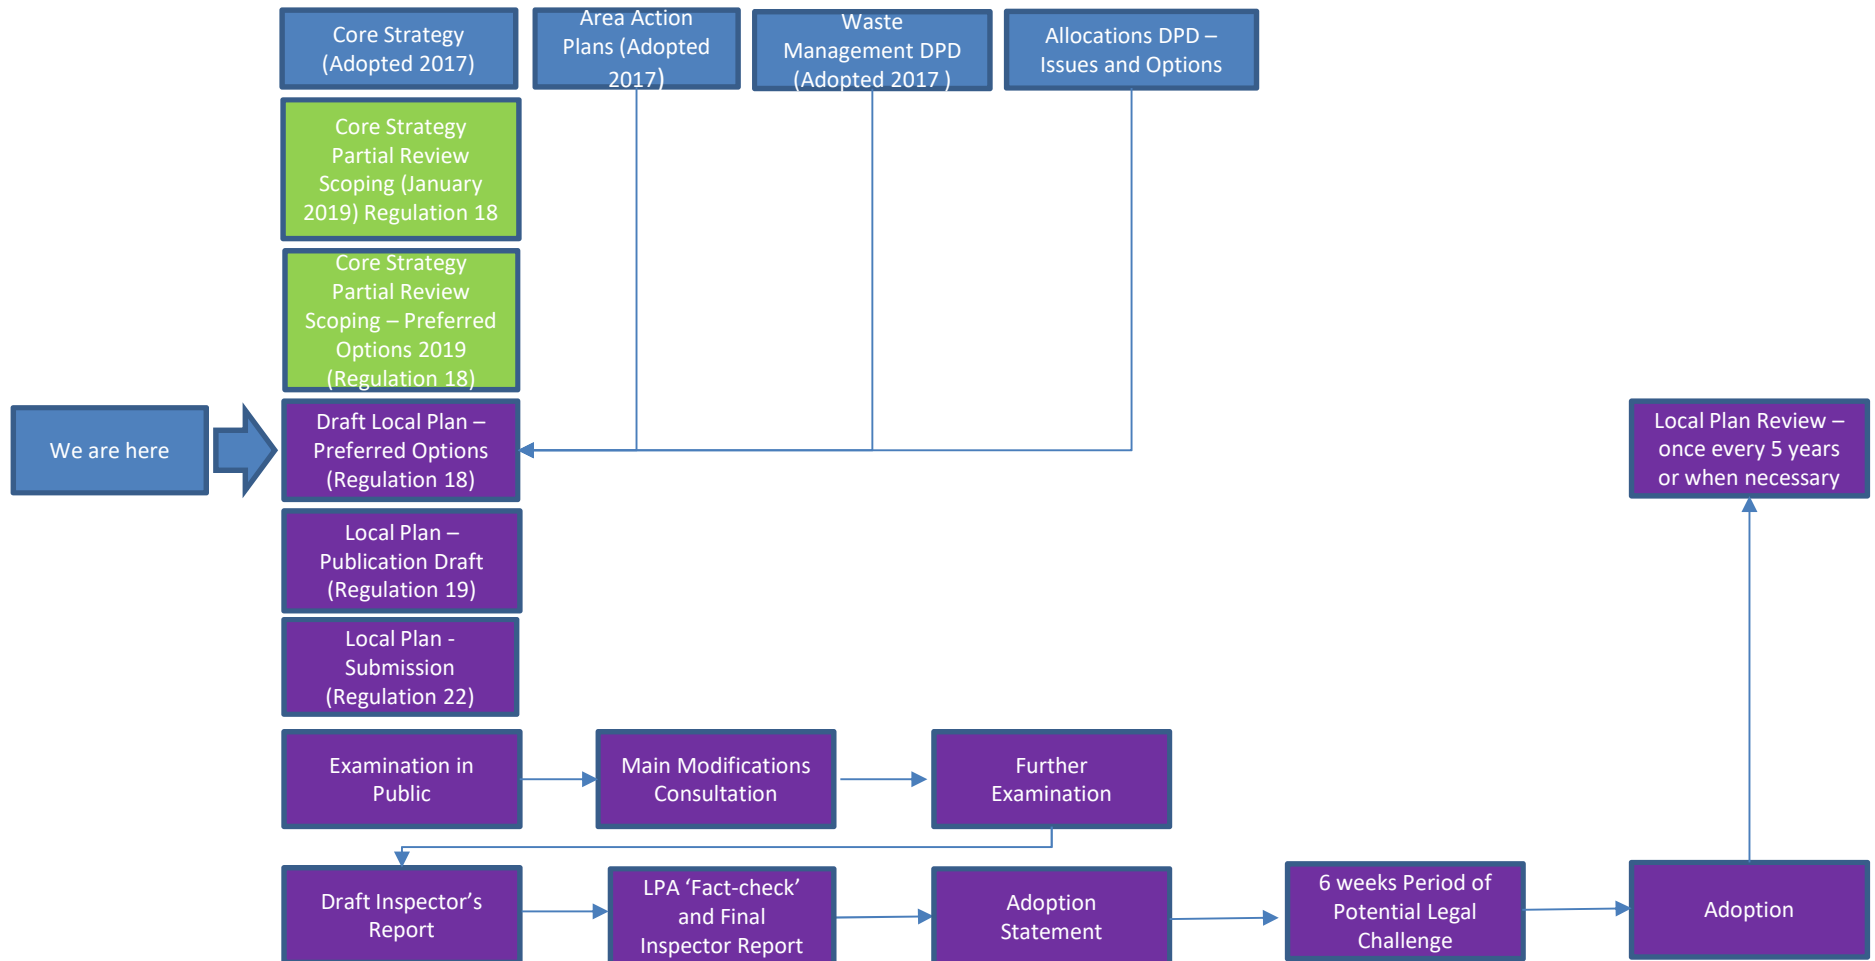

- **Government requirement with statutory duties set out through the Planning and Compulsory Purchase Act 2004** – essential that plans are in place and kept up to date.
- **Planning application role** - The development plan is at the heart of the planning system with a requirement set in law that planning decisions must be taken in line with the development plan unless material considerations indicate otherwise.
- **Strategic vision and direction** - Plans set out a vision and a framework for the future development of the area, addressing needs and opportunities in relation to housing, the economy, community facilities and infrastructure – as well as a basis for conserving and enhancing the natural and historic environment, mitigating and adapting to climate change, and achieving well designed places.
- **Certainty & Control** – having a Local Plan in place provides the Council and communities with greater control over the scale and nature of development and change compared to a planning application and appeal led situation.
