

# Bradford Clean Air Zone

Help us improve air quality by driving compliant vehicles

## CHECK YOUR FLEET [www.gov.uk/clean-air-zones](http://www.gov.uk/clean-air-zones)

This DVLA website will tell you if your vehicle will be charged in all UK Clean Air Zones including Bradford.

	Vehicle	Compliance requirement	Charge for non-compliant vehicles
If you have a compliant vehicle then this will not be charged to drive in the Bradford Clean Air Zone.	HGVs	Minimum Euro 6 diesel including alternative fuels	£50
	LGVs	Euro 6 - Diesel, Euro 4 - Petrol, LPG (Euro 4 petrol)	£9

## USEFUL TIPS

- Plan to use compliant vehicles for Bradford deliveries to avoid paying any charges.
- If you do not have a compliant vehicle choice then use a LGV rather than a HGV where possible.
- Consider upgrading to a compliant vehicle which could be a cost-effective alternative to paying the charge over the longer term, in Bradford and in other Clean Air Zones.
- Compliant vehicles may also offer businesses cost savings in fuel and maintenance.

Make the right choices and help us improve air quality for everyone in the District.
