

## Ward Profile – Ilkley and Addingham ward

### At a glance:

- Ilkley and Addingham ward has a total population of 16,600 people
- 13.9% of the population is under-16
- 96.1% of people living in Ilkley and Addingham ward identified as White
- 31.2% of households live in detached housing
- 84.2% of residents described their health as very good or good
- Seven of the eleven neighbourhoods are ranked as least deprived

### Introduction

Ilkley and Addingham ward is one of six wards in the Keighley area. It is located within the Wharfe valley to the north of the District and contains the town of Ilkley, neighbouring Addingham and most of Ilkley Moor. It is a scenic and largely prosperous area with many of its inhabitants commuting to Bradford and Leeds to work. There were major changes to the ward boundary under the Local Government Boundary Commission review with the village of Addingham being added to the ward.

### Population

The mid-2024 aggregated population estimates show that 16,600 people live in Ilkley and Addingham ward. 13.9% of the population is under 16 (the lowest percentage in the District). Little Horton ward has the highest percentage (28.9%).

51.7% of the ward population is aged between 16 and 64 (the lowest percentage in the District). City ward has the highest percentage with 71.1% - this probably reflects the high numbers of students and young people living in the areas close to Bradford College and Bradford University.

27.2% of the ward population is aged 65 to 84 (the highest percentage in the District). City ward has the lowest percentage with 5.6%

7.2% of the ward population is aged 85 and over (the highest percentage in the District). Little Horton ward has the lowest percentage with 0.4%.

17.1% of employees in Bradford District work in professional occupations, 12% work in elementary occupations and 11.5% work in associate professional and technical occupations.

## Health and disability

The 2021 census asked people about their health, whether they have any disabilities and if they act as unpaid carers for anyone else.

In Ilkley and Addingham ward 84.2% described their health as 'Good or very good' and 3.9% described their health as 'Bad or very bad'. Wharfedale ward had the highest percentage of people who described their health as 'Good or very good' (85.8%). Holme Wood and Bierley ward had the highest percentage of people who described their health as 'Bad or very bad' (7.5%).

80.6% of Bradford District residents described their health as 'Good or very good' and 6% described their health as 'Bad or very bad'

The census asked people whether they had any physical or mental health conditions or illnesses lasting or expected to last 12 months or more. It also asked whether any of these conditions or illnesses reduced the respondent's ability to carry out day-to-day activities.

In Ilkley and Addingham ward 83.8% responded that they do not have any illnesses or disabilities which limit their day-to-day activities. 5.9% consider that their activities are limited a lot and 10.3% feel that their activities are limited a little. Wharfedale ward had the highest percentage of people who do not have any illnesses or disabilities which limit their day-to-day activities (85.7%). Holme Wood and Bierley ward has the highest percentage of people who consider that their activities are limited a lot (9.9%) and Wyke ward has the highest percentage who feel that their activities are limited a little (11.7%).

82.9% of Bradford District residents do not have any illnesses or disabilities which limit their day to day activities, 8% find their activities are limited a lot and 9.1% find their activities are limited a little.

**The Census took place during the coronavirus (Covid 19) pandemic. This may have influenced how people perceived and rated their health and therefore may have affected how people chose to respond.**

## Unpaid care

The census asked people whether they look after or give any help or support to anyone with a long-term physical or mental health conditions, or any problems relating to old age.

In Ilkley and Addingham ward, 91% do not provide any unpaid care, 5.6% provide 19 hours or less per week (the highest percentage in the District) and 2.2% provided more than 50 hours per week. Residents in City ward were least likely to provide unpaid care (93%) and 3.8% of Wyke ward residents provide more than 50 hours per week.

91.1% of Bradford District residents do not provide any unpaid care, 3.9% provide 19 hours or less per week and 2.8% provided more than 50 hours per week

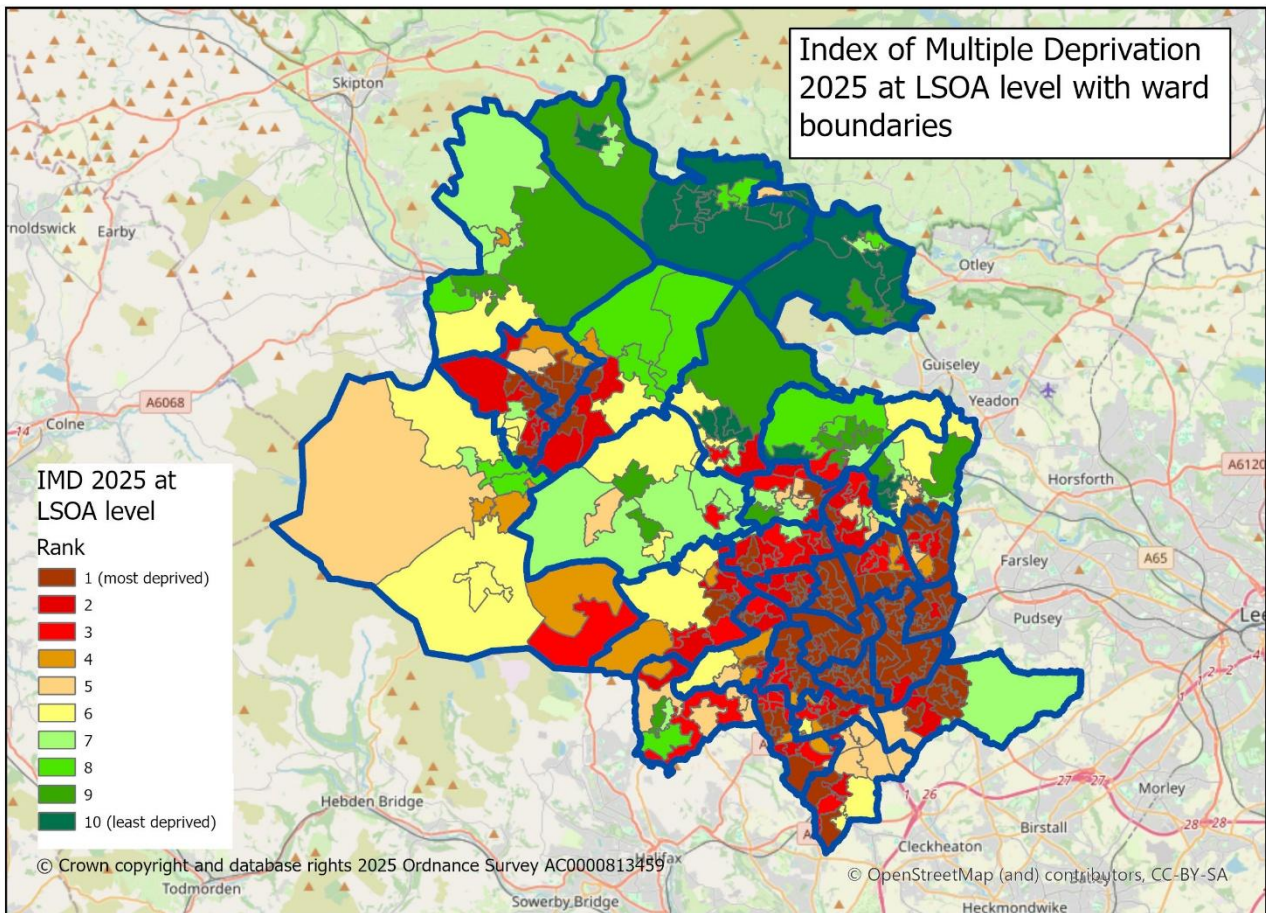

## Life expectancy

In 2022-24 life expectancy at birth for both males and females living in Bradford District is lower than the national average. Life expectancy at birth for females is 81.7 years and for males is 77 years. The life expectancy rates for females at birth in England is 83.3 years and for males is 79.5 years.

Data is not available at ward level.

## Deprivation

The following map shows Lower Super Output Areas (LSOAs) ranked by deciles of deprivation as identified in the 2025 Index of Multiple Deprivation. More deprived neighbourhoods are shown in red and less deprived neighbourhoods are shown in green.

The lower layer super output area boundaries are not directly aligned with the ward boundaries and individual LSOAs may be split across more than one ward. A best-fit methodology has been used which matches the main population of each LSOA to one ward.

Seven of the eleven LSOAs in Ilkley and Addingham ward are ranked as least deprived (shown in dark green on the above map).

The Indices of Deprivation 2025 were published in October 2025 at district and lower layer super output area. The indices are calculated using 55 separate indicators, organised across seven distinct domains of deprivation (income, employment, education skills and training, health deprivation and disability, crime, barriers to housing and services and living environment) which are weighted and combined to calculate the Index of Multiple Deprivation 2025.

Bradford is the 12<sup>th</sup> most deprived local authority in England and is ranked 4<sup>th</sup> most income deprived and 5<sup>th</sup> most employment deprived.

### More about deprivation

The data does not apply to every person who lives in each area. Many non-deprived people live in deprived areas, and many deprived people live in non-deprived areas. It should be noted that the boundaries for Lower-layer Super Output Areas are not necessarily co-terminus with the ward boundaries.
