- Thornton & Allerton is ranked 18th of 30 wards in the District for the 2019 Index of Multiple Deprivation where 1 is the most deprived (Manningham ward) and 30 is the least deprived (Wharfedale).

Introduction

Thornton and Allerton ward is one of six wards in the Bradford West area. Thornton and Allerton stretches from Sandy Lane in the north to the District boundary with Calderdale in the south-west. It contains the suburb of Allerton and the village of Thornton, as well as large areas of surrounding agricultural land.

Population

The mid-2022 population estimates show that 18,560 people live in Thornton and Allerton. 22.9% of the population is under 16. Craven has the lowest percentage in the District (15.7%). Little Horton has the highest percentage (30.3%).

60.9% of the ward's population is aged between 16 and 64. Ilkley has the lowest percentage of the working age population with 53.2% and City has the highest percentage with 71.5% - this probably reflects the high numbers of students and young people living in the areas close to Bradford College and Bradford University.

14.4% of the population of Thornton and Allerton is aged 65 to 84. City ward has the lowest percentage with 5.4%. Craven and Ilkley wards have the highest percentages with 23.8%.

1.8% of Thornton and Allerton's population is aged 85 and over. Little Horton has the lowest percentage with 0.4% and Ilkley ward has the highest percentage with 6.9%.

Life expectancy - males

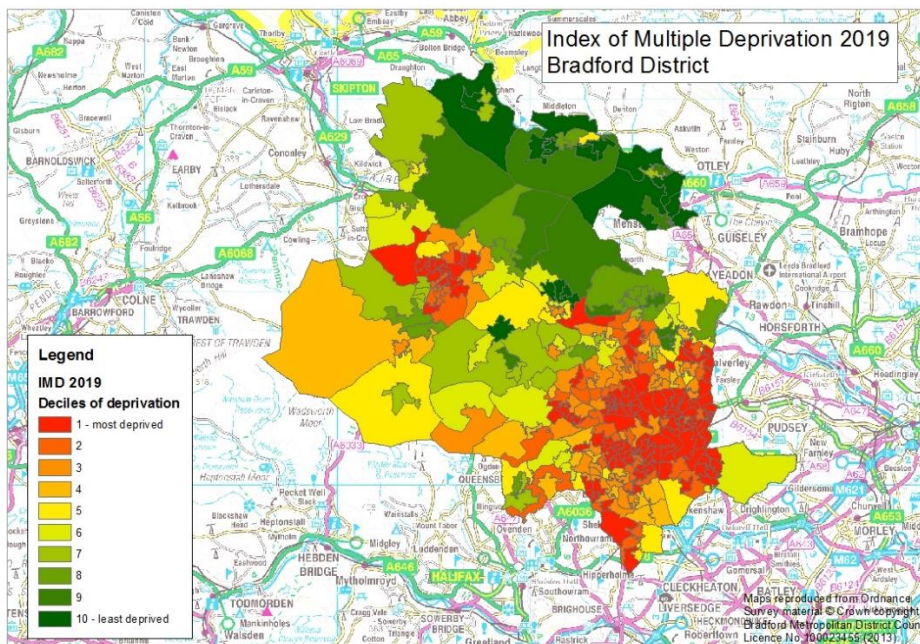

Life expectancy - females

Deprivation

The following map shows Lower Super Output Areas (LSOAs) ranked by deciles of deprivation. More deprived neighbourhoods are shown in red and less deprived neighbourhoods are shown in green.

The Indices of Deprivation 2019 were published in September 2019 at district and lower layer super output area. The indices are calculated using 39 separate indicators, organised across seven distinct domains of deprivation (income, employment, education skills and training, health deprivation and disability, crime, barriers to housing and services and living environment) which are weighted and combined to calculate the Index of Multiple Deprivation 2019.

The results have now been aggregated to ward level and this shows that 14 of the District's wards are amongst the 10% most deprived wards in England and one ward is amongst the 10% least deprived wards in England. Manningham is consistently the most deprived ward for most of the indices and Wharfedale is consistently the least deprived ward for most of the indices.

Thornton and Allerton is ranked 18th out of 30 wards where 1 is the most deprived and 30 is the least deprived. Thornton and Allerton is in 16th place for both income and employment deprivation and 19th place for education, skills and training deprivation.

More about deprivation

The data about deprivation has been aggregated to ward level. Although this data provides a description of the District's wards, this description does not apply to every person who lives there. Many non-deprived people live in deprived areas, and many deprived people live in non-deprived areas.
